

COMMONWEALTH OF PENNSYLVANIA
OFFICE OF THE GOVERNOR

GREETINGS:

It is my pleasure to recognize The Borgen Project for their hard work and advocacy in reducing global poverty.

The Borgen Project is a nonprofit, nonpartisan organization that has made it their mission to bring awareness to the issue of global poverty and how to fight it to the forefront. Reducing global poverty not only helps our world, but it also benefits Pennsylvania's economy, job market, security, environment, and more. Additionally, through the help of many volunteers and interns across Pennsylvania, The Borgen Project is able to reach their goals and connect with various members of Congress to discuss global poverty reduction policies. These individuals are a true representation of the values and traditions of our commonwealth and remind us all that our daily decisions can impact the world around us in large and vital ways. I am confident that The Borgen Project's work will inspire individuals across Pennsylvania and the nation for many years to come.

As Governor, and on behalf of all citizens of the Commonwealth of Pennsylvania, I am delighted to recognize The Borgen Project for their hard work and dedication in fighting global poverty. Please accept my best wishes for continued success.
